

Gram Panchayath level orientation for stakeholder under the Jal Jeevan Mission in various panchayaths.

AGES has been selected as one among the Special Implementation Agencies for the Jal Jeevan Mission and is active in this regard by associating with various stakeholders at local levels. Recently we have undertaken various orientation meetings including Political, social and other stakeholders to provide a vivid understanding about the Mission and its various underlying objectives. The participants provided deeper insights into their plights with respect to water security in their respective regions and have also provided some measures to overcome their issues. We are looking to work closer with various stakeholders to fulfil our commitments in this regard.
